
Page 1: City of Port Phillip Council Elections Candidate Questionnaire

Q1

Please enter your name

Name

Peter Martin

Q2

Support

Climate Emergency Almost 100 Australian councils have declared a climate emergency, covering over 8 million Australians. This includes our neighbouring councils in Glen Eira, Stonnington, and Bayside. In 2019, the City of Port Phillip council declared a climate emergency. Climate emergency declarations: [https://climateemergencydeclaration.org/climate-emergency-declarations-cover-15-million-citizens/Do you support the Council's declaration of a Climate Emergency?](https://climateemergencydeclaration.org/climate-emergency-declarations-cover-15-million-citizens/Do-you-support-the-Council's-declaration-of-a-Climate-Emergency?)

Q3

Commit

Climate Emergency Action Plan We believe that Council should prioritise the development of a Climate Emergency Action Plan in response to its declaration of a climate emergency and commit to strong targets to reduce the environmental impact across the City of Port Phillip. The Climate Emergency Action Plan should be consistent with what science tells us is necessary to stay within a 1.5C temperature range target. The Climate Emergency Action Plan should be integrated into an updated Council Plan. PECAN Draft Climate Emergency Action Plan: <http://pecan.org.au/climate-emergency-action-plan/> PECAN's Climate Emergency Action Plan is based on analysis of best practice from councils across Victoria (Yarra, Moreland, Melbourne, and Darebin) and informed by the most recent science. Do you commit to developing a Climate Emergency Action Plan that includes targets and regular reporting and integrate this into an updated Council Plan?

Q4

Support

Council Advocacy We believe that Council should engage with other local government bodies, state and federal governments to advocate for strong action to tackle the climate emergency. Do you support Council advocating to other tiers of government for action to tackle the climate emergency?

Q5

Support,

Council Sustainable Procurement Port Phillip Council's current procurement policy favours council engaging with socially responsible and environmentally sustainable suppliers. We believe the Council should strengthen this procurement policy. Will you advocate for and support a Council procurement policy that gives strong priority to the purchasing of goods and services from environmentally sustainable companies and suppliers?

Additional comments:

"Strong priority" is an appropriate policy, rather than an absolute ban because there may be occasions where appropriately credentialed suppliers are not available in the short term to supply essential services

Q6

Support conditionally,

Council Sustainable Procurement (cont) Will you advocate and support a policy that cuts Council's ties to businesses with links to socially irresponsible companies including fossil fuel companies?

Additional comments:

If socially responsible suppliers are available then Council should use them, but there may be occasions where such suppliers are not, in the short term, available to supply an essential service

Q7

Support

Council Ethical Investment Port Phillip Council currently minimises investment in the fossil fuel industry and other socially irresponsible investments. We believe that Council should only invest in ethical companies. Do you support divestment of Council investments in fossil fuel and other non-ethical companies?

Q8

Commit

Climate Emergency Education Port Phillip Council currently undertakes many educational activities in environmental sustainability. We believe that Council has a key role in informing and educating residents about the climate emergency. Council should integrate this educational function as a priority of the Council Plan. Do you commit to educating residents, businesses and other organisations about the actions that council and other parties are taking to tackle the climate emergency?

Q9

Council Sustainability Funding We believe that Council should adequately fund its sustainability and climate emergency initiatives. Do you commit to increase funding so that Council's sustainability strategies and initiatives are adequately funded?

Commit conditionally,

Additional comments:

I support this as a medium term goal, but, for the next 12 months, it will need to be considered alongside the many other critical budget needs that are arising as a result of the impact of the pandemic, and these needs will need to be prioritised

Q10

EcoCentre Funding The EcoCentre performs a vital education, resource and advocacy role across the City of Port Phillip. EcoCentre link: <https://ecocentre.com> Do you commit to ongoing Council funding for the Port Phillip EcoCentre?

Commit**Q11**

EcoCentre Redevelopment EcoCentre Redevelopment Plan: <https://ecocentre.com/redevelopment> Do you commit to Council funding the redevelopment of the EcoCentre building?

Commit conditionally,

Additional comments:

In principal, I fully support the proposal. However, there will be many short-term budget considerations arising from the pandemic and these will need to be worked through and prioritised.

Q12

Elsternwick Park Nature Reserve Masterplan We believe that the redevelopment of Elsternwick Park Nature Reserve makes a crucial contribution to the City of Port Phillip's Integrated Water Management strategy, mitigating flooding, reducing pollution runoff to the Bay, providing unparalleled open space and free water for greening the municipality. Elsternwick Park Nature Reserve Masterplan: <https://www.bayside.vic.gov.au/news/plan-elsternwick-park-nature-reserve> Do you commit to Council formalising an agreement with Bayside Council and Melbourne Water to ensure ongoing involvement in the implementation of the Elsternwick Park Nature Reserve Masterplan?

Commit**Q13**

Open Space and Water Management Many Councils are developing Green-Blue Infrastructure Plans, incorporating tree planting integrated with open spaces and water management features. Do you support integrated planning for increased tree planting and more open space, especially in areas that are deficient?

Support,

Additional comments:

I support this in principle, but the timeline will be dependent on what other short-term budget pressures arise during the COVID recovery process
