Page 1: City of Port Phillip Council Elections Candidate Questionnaire

**Q1**

Please enter your name

Name

**Robbie Nyaguy**

---

**Q2**

Climate Emergency Almost 100 Australian councils have declared a climate emergency, covering over 8 million Australians. This includes our neighbouring councils in Glen Eira, Stonnington, and Bayside. In 2019, the City of Port Phillip council declared a climate emergency. Climate emergency declarations: <https://climateemergencydeclaration.org/climate-emergency-declarations-cover-15-million-citizens/> Do you support the Council's declaration of a Climate Emergency?

**Support,**

Additional comments:

I wholeheartedly support Council's Climate Emergency declaration!

---

**Q3**

Climate Emergency Action Plan We believe that Council should prioritise the development of a Climate Emergency Action Plan in response to its declaration of a climate emergency and commit to strong targets to reduce the environmental impact across the City of Port Phillip. The Climate Emergency Action Plan should be consistent with what science tells us is necessary to stay within a 1.5C temperature range target. The Climate Emergency Action Plan should be integrated into an updated Council Plan. PECAN Draft Climate Emergency Action Plan: <http://pecan.org.au/climate-emergency-action-plan/> PECAN's Climate Emergency Action Plan is based on analysis of best practice from councils across Victoria (Yarra, Moreland, Melbourne, and Darebin) and informed by the most recent science. Do you commit to developing a Climate Emergency Action Plan that includes targets and regular reporting and integrate this into an updated Council Plan?

**Commit,**

Additional comments:

Again I wholeheartedly support doing this. I have already made a number of commitments including increasing tree canopy cover, increasing renewable energy generation on Council buildings, investigating transitioning from gas in Council buildings, implementing FOGO bins by the end of 2021. I think that PECAN's draft Climate Emergency Action Plan provides a great pathway to put the Climate Emergency Declaration into practice.

---

**Q4**

Council Advocacy We believe that Council should engage with other local government bodies, state and federal governments to advocate for strong action to tackle the climate emergency. Do you support Council advocating to other tiers of government for action to tackle the climate emergency?

**Support,**

Additional comments:

The threat of the climate emergency means we must strongly advocate climate action to all levels of government, the private and non-profit sectors and our community. We must also not rely on just advocacy Council has a huge role to play in tackling the Climate Emergency locally.

**Q5**

Council Sustainable Procurement Port Phillip Council's current procurement policy favours council engaging with socially responsible and environmentally sustainable suppliers. We believe the Council should strengthen this procurement policy. Will you advocate for and support a Council procurement policy that gives strong priority to the purchasing of goods and services from environmentally sustainable companies and suppliers?

**Support**

**Q6**

Council Sustainable Procurement (cont) Will you advocate and support a policy that cuts Council's ties to businesses with links to socially irresponsible companies including fossil fuel companies?

**Support**

**Q7**

Council Ethical Investment Port Phillip Council currently minimises investment in the fossil fuel industry and other socially irresponsible investments. We believe that Council should only invest in ethical companies. Do you support divestment of Council investments in fossil fuel and other non-ethical companies?

**Support,**

Additional comments:

I agree and I want to see investment as an opportunity. Council must invest in companies that strengthen the health of our planet rather than just moving away from those that cause harm.

**Q8**

Climate Emergency Education Port Phillip Council currently undertakes many educational activities in environmental sustainability. We believe that Council has a key role in informing and educating residents about the climate emergency. Council should integrate this educational function as a priority of the Council Plan. Do you commit to educating residents, businesses and other organisations about the actions that council and other parties are taking to tackle the climate emergency?

**Commit**

**Q9**

**Commit**

Council Sustainability Funding We believe that Council should adequately fund its sustainability and climate emergency initiatives. Do you commit to increase funding so that Council's sustainability strategies and initiatives are adequately funded?

---

**Q10**

**Commit**

EcoCentre Funding The EcoCentre performs a vital education, resource and advocacy role across the City of Port Phillip. EcoCentre link: <https://ecocentre.com> Do you commit to ongoing Council funding for the Port Phillip EcoCentre?

---

**Q11**

**Commit**

EcoCentre Redevelopment EcoCentre Redevelopment Plan: <https://ecocentre.com/redevelopment> Do you commit to Council funding the redevelopment of the EcoCentre building?

---

**Q12**

**Commit,**

Elsternwick Park Nature Reserve Masterplan We believe that the redevelopment of Elsternwick Park Nature Reserve makes a crucial contribution to the City of Port Phillip's Integrated Water Management strategy, mitigating flooding, reducing pollution runoff to the Bay, providing unparalleled open space and free water for greening the municipality. Elsternwick Park Nature Reserve Masterplan: <https://www.bayside.vic.gov.au/news/plan-elsternwick-park-nature-reserve> Do you commit to Council formalising an agreement with Bayside Council and Melbourne Water to ensure ongoing involvement in the implementation of the Elsternwick Park Nature Reserve Masterplan?

---

Additional comments:

Elsternwick Park North presents an incredible opportunity that we must work with Bayside Council and Melbourne Water to deliver.

**Q13**

**Support,**

Open Space and Water Management Many Councils are developing Green-Blue Infrastructure Plans, incorporating tree planting integrated with open spaces and water management features. Do you support integrated planning for increased tree planting and more open space, especially in areas that are deficient?

---

Additional comments:

I want to investigate storm water harvesting for the Catani Gardens, believe we must set targets to increase canopy cover (and plant climate appropriate varieties) and de-paving across our city.
